Crystal Lake Advancement Association
Members of the Board of Directors
PO Box 32
Elkhart Lake, WI 53020-0032

Dear Board Member,

Thanks to the efforts of your fellow Board Member, Jeff Goelzer, the Sanitary District is pleased to help fund your weed control efforts at Crystal Lake. As you may know the Sanitary District budgeted \$2500, in matching funds, to be used this year to further your efforts. Following are the conditions placed upon release of the funding by the Sanitary District Commission:

- All Crystal Lakers (not just association members) are given information, by mail, about the problem and planned treatments. Additionally that they are given an opportunity for input. The same mailing may be used to pass along information and to seek input. The District requires a copy of all input received.
- All Crystal Lakers are given adequate notice before application of chemicals
- Timing of chemical application is when the lake is used very little

Please submit substantiation that these conditions have been met with the request for payment, and thank you again for this opportunity to work together for the benefit of all Crystal Lakers.

Sincerely,
The Commission

Cc: each board member
